

The Science Fair is now the STEM Fair!

STEM stands for **S**cience, **T**echnology, **E**ngineering, and **M**athematics. STEM is important because it runs through every part of our lives. Science is everywhere in the world around us.

Instead of being limited to a scientific experiment, you can do a project in any STEM category: Science (biology, chemistry, geology), Technology (computer science, game or app coding), Engineering (design and build a robot, structure or machine) or Math (physics, statistics, create a math game or puzzle).

Details:

- All projects must be dropped off Tuesday, March 13th between 6:00-8:00pm in the Central School gymnasium.
- The STEM Fair will be held during school hours on Wednesday, March 14th.
- The STEM Fair will be open to families on Wednesday, March 14th 6:00-8:00PM
- Projects must be taken home on Wednesday night.
- Sign up on the HSA website
